AMENDMENT

Sir:

In response to the Examiner's Action dated September 27, 1999, please  
amend the above-identified application as follows:

In the Claims

Please amend the claims as follows

24 72. (Amended) A locator system comprising a number of individual  
portable transmitter units, a number of individual stationary receiver units, and central  
data processing means;

said transmitter units each comprising infrared transmission means and  
programmable microprocessor means [remotely separated from said central data  
processing means] such that [each said receiver unit has the capability to store multiple
